

Science-Materials and states of matter.

We will be exploring the uses of different materials and be designing our own products. We will link states of matter with our maths work about negative numbers to learn about solids liquids and gases.

Maths

In maths we will be comparing large numbers even up to 1 million and thinking about where we would see a million of something. We will also be studying negative numbers and applying it to real life for example temperature.

English

We will be learning about alternative fairy tales and writing them into a newspaper article.

We will also be writing a biography as one of the characters.

P.E

Children will have 2 P.E lessons per week (Wednesday and Friday) so it is essential that they have their P.E kits.

They will be learning about balance and agility.

Topic- Marvellous Mountains

We will be learning about famous mountains around the world. This will include the features of mountains and how the weather changes at different parts of the mountain.

Reminders

Spellings are given out on Thursday and tested on the following Thursday.

Homework is given out on a Thursday and due back on the following Wednesday.

It is important that children practice their maths challenge cards and spelling as these really help them progress.

Children should be reading everyday and it should be recorded in their reading diary. This should be brought into school everyday.
